COMPANY OVERVIEW

Founder German Calas discovered the kava bar community in 2012, launched BestKavaBar.com in 2015, and went on to visit more than 500 kava bars. As the community grew, he saw how difficult it had become to know where to go, what was happening, and where friends were gathering.

He launched HappyKava in 2025 to bring regulars, travelers, kavatenders, and owners together in one place. HappyKava helps people discover and stay connected to kava bars while giving those bars tools to manage, promote, and grow. Built from within the community. Shaped by the community. Here to grow alongside it.
